

## [Sr Data Analyst/Business Intelligence Consultant - #222587](#)

Location: CA-Folsom, IA - Des Moines

### **Disruption leads to innovation.**

Many companies say they use “big data” to identify trends. But that’s only the first step. Being able to extract value and develop creative insights to solve problems is key in staying ahead of the curve with today’s pace of change. And we’re looking for a leader who can do just that.

As a Sr Distribution Data BI Consultant, you partner closely with our leadership teams in Principal Global Investors US Wealth Advisor Solutions team. You’ll analyze rich data sets and turn those into impactful findings so business leaders in our sales and marketing teams have actionable next steps to meet the evolving needs of customers – today and in the future.

Additional responsibilities include but aren’t limited to:

- Identifying Competitive Analysis for Asset Retention and Sales
- Key Reports for our Wealth Advisory Solutions team
- Use data to influence new approaches in the market working with Financial Advisors

Qualifications:

- Bachelor's degree or equivalent experience required
- 6+ years of related work experience.
- Strong ability to influence, including presentation, negotiation, and leadership skills.
- Strong interpersonal skills, including verbal and written communication.
- Ability to address needs and potentially competing priorities from multiple customers.
- Excellent problem-solving, analytical, math, and statistical skills and demonstrates the ability to identify and resolve complex problems.
- Ability to understand the importance of definitive data and the ability to persist in ensuring the appropriate source.
- Must be accurate and pay strong attention to detail.
- Advanced knowledge of company business unit products, distribution (sales), customers, and investment knowledge.
- Ability to maintain confidentiality.
